

## Changes at Street's Hope

**There are thousands of people in Colorado who need YOUR help.**

**We know that you care about victims of sexual exploitation and sex trafficking and, as a supporter of Street's Hope, we wanted to share some exciting changes with you.**

We have talked with countless women in the sex industry, and people fighting for justice alongside us. We have researched how to serve women in ways they need it most and evaluated Street's Hope's current program.

The community is calling, and we are answering. Because the need extends the boundaries of our safehouse, we are boldly transitioning to a community-based program.

Moving forward, our services will be available to anyone over 18 who needs them, supporting everyone who is suffering from sexual exploitation. We will:

- Expand upon existing and build new community partnerships;
- Grow street outreach and our support groups to meet more people in need on East Colfax;
- Offer clients a new 16 week intensive program designed for maximum impact on the devastating effects of exploitation and trauma;
- Serve as many as 10x more people each year.

Thank you for the ways that you have helped each and every woman who we have had the honor to serve and for positioning Street's Hope as an expert in the anti-trafficking movement. The work continues and we know your impact will be even greater.

**We will continue to do the same good work, with more people, in different settings.**

---

## Get Involved!

It has become clear that, together, we will serve more people with a community-based program. Together, we will reach people where they are, in ways unique to them.

And we want YOU to continue to be a part of it! Here are some easy ways to get involved:

- **Reach out!** We would love to talk with you about how we're answering the community need. We'll be at Jagged Mountain Brewery on July 17th, and can

answer any questions, or you can contact Caroline McKinnon at [executivedirector@streetshope.org](mailto:executivedirector@streetshope.org)

- **Join us!** Become a founding member of our new *Sustaining Hope Giving Society* by **committing to a monthly donation**. The sooner you join, the sooner we can offer more hope!
- **Tell a friend** about Street's Hope and encourage them to join the movement!

Thank you and we look forward to how we can better serve more people, together!
